ROUTE 113

HOPE FOR RECOVERY

Chicago Youth Shoots Self In
Hand While Hunting Sun-
day Near State Line

Samuel Trail, 28, son of J. T. Trail, 365 East Hickory street, is in St. Mary's hospital with a fractured skull as the result of an automobile accident on Highway 113 near Custer park at 5:30 o'clock Saturday afternoon. Trail has been unconscious since the accident.

All efforts to revive the young man have proven futile, although Dr. J. A. Brown, the attending physician, stated that Trail's condition today showed slight improvement and hopes are entertained for his recovery.

Trail was riding in a car driven by Jack Raymond of this city who was slightly injured in the crash. Their car was crashed into by a machine driven by a man named Calhoun, residing at Custer Park. The accident occurred at a curve while Calhoun was attempting to pass Raymond's machine. The injured were brought to this city by Sergeant Albert Goodknecht of the state highway police.

Miss Erma Hilgert, an Ashkum girl, was badly cut and bruised in an accident on highway 25 Sunday afternoon. She was brought to the local hospital as were Martin and Joseph Gutenkauf, Chicago, who were slightly injured in an accident on Cicero avenue near the junction with Highway 49.

Ralph W. Stentz, 466 South Wildwood avenue, sustained a broken arm and minor bruises when the car which he was driving slid off a loose gravel road in Indiana, about eight miles east of Moline, Sunday afternoon. The car fell on its side against a ditch bank and Stentz's arm was pinned beneath it. Other occupants of the car were uninjured. Stentz was taken to the office of Dr. N. VanZant in Moline and later removed to the hospital in this city.

Emil Hoppmann, Chicago, accidentally shot himself in the right hand while hunting with a party of other youths near the state line east of Moline on Sunday. He was taken to the office of Dr. Jensen in Moline and then to St. Mary's hospital where it was necessary to amputate two fingers.

Mr. and Mrs. Earl Cooney, Wilchert, were slightly injured when their car was struck by a machine driven by James Connor, Chicago, on the Dixie highway Sunday morning. Cooney was turning off the road into the Cote farmyard near St. Anne when the collision occurred.

AMERICAN BANKERS MEET AT CLEVELAND

Cleveland, O., Sept. 29.—(AP)—The opinion that business and industry in the United States is on a more sound basis than it was at the first of the year, was expressed by many of the nation's leading bankers here today as 6,000 members of the American Bankers Association gathered for their annual convention. They said credit of manufacturers is better.

The textile industry of the south was given as an example. Textile manufacturers, the delegates from that region said, are not making money, but they have smaller supplies on their shelves and consequently a diminished inventory load.

Some bankers expressed the feeling that the depression has taught more conservative buying and has increased the saving of money, which they considered a sound condition. There is still too much of a buyers' market, it was believed by some, and that there is still need for retailers to cut their margins of profit as the manufacturers have done.

It was the opinion of several speakers that taxation officials are appointed through political influence and not particularly for their ability to administer tax laws.

2 UPPER ROOMS OF WAMBI HOME SWEEP BY FIRE

A bedroom and closet on the second floor of the Philip Wambi home, 517 North Entrance avenue, was gutted by fire early this morning. The flames started in the closet, but the cause is not exactly known. The damage is covered by insurance.

Fire companies one and two of the Kankakee Fire Department answered the call, and upon their arrival found a mass of flames in the bedroom and closet. The fire had worked itself into the partitions and between the floors and the firemen had difficulty getting at it. By means of quick work, however, they confined the flames mostly to the bedroom and closet.

The firemen were on the job over an hour. The call was received at a police headquarters at 5:45 o'clock.

ARRAIGN BRADLEY MAN; IMPERSONATED A STATE OFFICER

Harry Cramer, Bradley, was arraigned before Justice C. H. Edison today charged with impersonating an officer. The case was continued for ten days at the request of Assistant State Attorney Charles W. Kurtz.

Cramer was arrested Sunday by Deputy W. J. Riley upon the complaint of Ora Harms. The latter alleged that Cramer had stopped his car on several occasions and demanded to know why Harms had not applied for his new state auto license plates. Harms also claimed that Cramer carried a revolver and fired a shot at him on one occasion when he refused to stop. Cramer denied that he fired a shot, but admitted that he had stopped Harms and questioned him about the license plates. Cramer is a former deputy sheriff whose commission has been revoked.

FOURTH APPEAL FOR TROOPS TO GUARD THE MINES

Dixon, Ky., Sept. 29.—(AP)—A fourth appeal for national guard troops to guard coal mine property was sent to Governor Sappington today by county authorities.

"The situation is beyond our control," said County Judge Arthur L. Hall, County Attorney C. L. Walker and Sheriff R. L. Overby in a telegram to the governor.

Property damage caused by violence in the coal fields which included dynamiting, burning, shooting and dropping of bombs from an airplane in the last two months as a result of labor trouble was estimated by Judge Hall at \$100,000. The joint telegram said:

"We again ask for troops. The situation is beyond our control. The culprits have recently destroyed railroad bridges and burned the pump-house of the city of Providence, leaving between 5,000 and 6,000 citizens without water. Suffering here is unbearable."

The governor on previous occasions has refused to send troops, stating he thought detectives could do more to break up violence. Last week he added \$500 to the \$500 reward locally for arrest and conviction of persons responsible for violence and damage to property.

Water service to Providence, cut off last Saturday night by the burning of the pump-house, was partially restored today and it was stated that coal mines in the vicinity had enough water to resume operations. A revised estimate placed the damage at \$5,000.

The federal grand jury organized in Louisville today was expected to investigate charges against Paul Montgomery, Murphysboro, Ill., aviator, and eight other persons in connection with the recent bombing of coal mines in Webster county, Kentucky. Montgomery confessed he piloted the plane. The bombs caused no loss of life but terrorized the people in the vicinity of the mines.

CLARK HEARING IS CONTINUED TO WEDNESDAY

Preliminary hearing for Thomas Clark, colored, of 787 North Hobble avenue, who was arrested last Friday by John Stack, police chief, and charged with the murder of a woman, was continued today until Wednesday morning at 9 o'clock by Judge Bert L. Fitzgerald.

Hearing was originally set for this morning. Clark was arrested on the complaint of Willie Smith, young Manteno colored man, who claimed that Clark had attacked and wounded him with a knife during a scuffle at the alleged gambling house of Gabe Gross, another colored man, in the rear of the Blue Bird Inn, a colored resort on North Evergreen avenue. Smith went to St. Mary's hospital with a deep cut over one eye.

Gross, who resides at 833 North Hobble avenue, was arrested the next day by Stack and Imming as the keeper of the gambling house. He pled guilty to the charge before Judge Fitzgerald this morning and was fined \$100 and costs.

An automobile collision involving three automobiles was reported at police headquarters last night to Desk Sergeant Mike Quigley. KIWANIS CLUB WILL SPONSOR CHARITY MOVE

SEEK UNITED EFFORTS OF
CITY TO RELIEVE POOR
AND UNEMPLOYED

FOR WINTER MONTHS

Assistance Of Various Churches,
Clubs And Organizations
Will Be Enlisted

Members of the Kiwanis club, at their weekly luncheon today in McBroon's cafe, voted to sponsor a plan for some method of relieving distress among the poor and unemployed during the coming winter. Cooperation of the Rotary club, Chamber of Commerce, Salvation Army, county and city officials, churches, charitable and fraternal organizations, lodges, etc., will be enlisted in the movement.

President Ralph Francis, Secretary Ray Lottinville and Romy Hammes were named as a committee to enlist the aid of other organizations in the project. The proposal was submitted to the club by Mr. Hammes who acted as program chairman today and said that an organization similar to a community chest movement was essential, to avoid duplication in the charity work in the furnishing of food, clothing, fuel and employment to needy and deserving families.

Attorney Claude M. Granger suggested that the Kiwanians start the ball rolling with a donation of 500 from its general fund for the relief work. He said that such an effort would more than justify the existence of the club. He urged that the proposed relief organization keep a register of the unemployed and that employers give preference to heads of families who have small children. His plan was heartily endorsed by A. R. Beard, Dr. A. C. Willman, G. W. Boyd, W. C. Babst and other members of the club.

Kiwanian Arthur L. Beckman, a member of the county board of supervisors, explained the acute needs of the poor and unemployed and stated that the county's funds for relief are being more rapidly depleted than ever before. E. E. Phillips also told of the work which the Elks' lodge is doing among the poor and for the crippled children, stating that this work must stop soon unless more funds are raised.

W. A. Schneider passed the cigars today in honor of the birth of another son to himself and Mrs. Schneider. The club's appreciation was voiced by Dr. E. L. Longpre.

B. B. Ferris announced that the following members of the club would furnish cars to transport a party of Kankakee boys to the Iowa State-Indiana football game at Urbana next Saturday: Frank Reuter, E. B. Gower, Romy Hammes, John Campbell, W. C. Babst and Louis Ray. The boys are being supplied with free tickets to the game and the motorcycle will leave the Y. M. C. A. at 11 o'clock Saturday morning.

At this time, the new pastor was elected as permanent pastor and expressions of gratitude were made to all those who have contributed to the church and especially for the contribution of two dozen chairs from the Paramount Knitting Factory.

CELEBRATE THEIR 50TH ANNIVERSARY

MR. AND MRS. ONESIME ALARIE
OF ST. GEORGE WED-
DED HALF A CENTURY

MASS IN HONOR

Sung By Rev. Adhemar Savary,
Pastor Of Their Church,
In The Village

Mr. and Mrs. Onesime Alarie of St. George, in this county, celebrated the 50th anniversary of their marriage, at St. George yesterday.

A high mass of thanksgiving was sung in their honor, at 10 o'clock a. m. by Rev. Adhemar Savary, their pastor.

The remarkably good choir of St. George sang Leonard's mass with great success.

Father Savary's remarks were most appropriate, pleasing and effective. Mr. and Mrs. Alarie have no children, but their relatives—notably all the Dupuis and Blanchette families of this county—and their friends, about 300 in number were present both at mass and at the sumptuous dinner served in the parish hall.

The parish of St. George has only 54 bona fide families, whose membership is 279; yet this parish has no indebtedness whatsoever and has several hundred dollars to its credit in the bank.

Mr. Alarie being a cripple—having lost both of his legs—and being in humble financial circumstances, but both Mr. Alarie and his wife being good Catholics and good American citizens, the members of these 54 families turned en masse to honor, console and rejoice this venerable couple. Every family had representatives at this celebration.

Such is the Christian spirit that animates the entire congregation of Father Savary.

Mr. and Mrs. Alarie were married in the City of New York on September 26, 1880. Mr. Alarie is 77 and Mrs. Alarie 76. They are both French-Canadians.

His project was: "Let us erect in the most visible and notable place in America, in a central point and where it may be visited by travelers as they approach her shores, the statue that his greatness and remembrance demand. Let this statue be a colossal one that of Rhodes, and let it be dedicated to the best sculptor available and with funds raised by popular subscription in all the cities of Europe and America, and let this statue have its arms extended and pointing to the east and the other of the American continents."

The lady missionary was telling about her work among the Chinese. "The children in the slums of China are dirty, very dirty. She was out on the street and was a good-looking girl, very child."

Planned Great Memorial

Nearly eighty years ago a Santo Domingo, Don Antonio Delmonico, 7 years old, conceived the idea of a fitting memorial to Columbus. His project was: "Let us erect in the most visible and notable place in America, in a central point and where it may be visited by travelers as they approach her shores, the statue that his greatness and remembrance demand. Let this statue be a colossal one that of Rhodes, and let it be dedicated to the best sculptor available and with funds raised by popular subscription in all the cities of Europe and America, and let this statue have its arms extended and pointing to the east and the other of the American continents."

"Dirty" Story

The lady missionary was telling about her work among the Chinese. "The children in the slums of China are dirty, very dirty. I hardly know how I can make clean to you the superlative degree of dirtiness that marks the children in the Orient. Perhaps this illustration will best suffice: Chesterfield, one of the noblest and purest of the mission, one day lost his daughter, Lotus Lily. She was out on the street and was a good-looking girl, very child."

NERVOUS ROBBERS GET SMALL LOOT

STONE NEWSPAPERS

Newspapers in the form of large stone tablets have been discovered during excavations at Olynthus, Greece. The tablets, which are about the size of a brick, contain inscriptions in ancient Greek. They are believed to be the remains of a public record book.

THE puffing, straining rugs nose her in... The gangplank's lowered... Friends and families gain reunite... Excitement reigns... the big ship has made another record crossing!

ONE will always stand out!

NEW FACES, new places, new scenes, but now, home again! How good it seems... And everywhere you went, you found Chesterfield—in every quarter of the globe. Everywhere, because everywhere Chesterfield stands out as "the cigarette of better taste."

MILDNESS—the entirely natural mildness of tobaccos that are without harshness or bitter- ness.

BETTER TASTE—such as only a cigarette of wholesome purity and better tobaccos can have.

The Voice of the AMERICAN LEGION- KANKAKEE POST #85. FOR GOD AND COUNTRY

At last the big meeting of the year is about here. Yes, sir, Tuesday, October 14, we will install our officers for the coming year 1931. Present plans call for a big public meeting at the Armory to which the general public and all surrounding posts will be invited. This will give the people of Kankakee an opportunity to see how a Legion meeting is conducted and also an opportunity to see the officers for the coming year assume their duties under the able instructions of Mr. J. B. Murphy of Bloomington Junior Vice Commander of the Department of Illinois who will act as installing officer. All Legionnaires should be in attendance with members of their family. The public is cordially invited. Let's make this the biggest and best meeting of the entire year.

We now have 21 paid up members for the start of the new Legion year. We should have at least 150 paid up by the installation meeting. Let's see who will be the first hundred.

Perry Chalmers is at home again after a two months sojourn at the Dwight hospital. We are glad to hear that Perry is progressing fine.

It's rather funny to hear of a man with all the qualifications of a Scotchman bearing the name of Anderson but such seems to be the case. Our good comrade Elmer was telling some of his friends the other day that all he has to do to see the night football games of the high school is to climb up on the roof of his garage and get his eyes full. The boys checked up on him last Friday evening and sure enough there was Elmer rooting like a good fellow for the home team to win.

An open letter from our retiring commander: Comrades: A short twelve months ago you paid me the sign honor of elevating me to the position of Commander of the funniest post in America. I have tried to show my appreciation of that honor by ceaselessly working to advance the interests of the Post and the American Legion. I wish to say that no one man can carry on the affairs of an organization such as ours without the cooperation of every member.

What successes we have had in the past year are due to the splendid spirit of cooperation given me by the membership. To you goes the honor and I am deeply grateful to all.

I have enjoyed this year as your commander more than anything that I have ever undertaken before and I will always remember the past year as the most enjoyable of my life. I only hope that I have not disappointed you as your commander. I have made many new and dear friends. I have tried hard and given you my best to help make our Legion a bigger and better Legion. I will hand over the gavel to the new commander, a far better Legionnaire than I, and will be ready to take my place in the ranks to help make the year 1931 and all other years bigger and better years for our post. To the officers of the post who served with me this year, I wish to extend my most sincere thanks for the splendid cooperation you gave me. It has been a pleasure to work with all of you.

My work as commander is just about finished but my work as a Legionnaire is just beginning, and I want to assure you that I am ready to do my share always. Before closing I want to say to the new commander and officers. You will be proud of your position in the post, you will never again meet and serve such a fine post and members. I can assure you that you will have the full cooperation of every member of Post No. 85 and we are all for you and ready to take up the work where I am leaving it off. We all wish you, with our cooperation, a happy and prosperous year and we hope that you will set a new mark for our post.

In closing I wish to thank the post for having the privilege of serving you during the past year. I am deeply aware of the responsibilities and the high distinction you have given me. I earnestly beseech you for the good of the post, to give the same worth-while wholehearted, loyal support to the new commander and his officers that you have so generously accorded me during my year in office. Yours for a bigger and better Legion, M. L. Sheehan.

Let's pause long enough to shed a tear for the American Indian. The white man copped his land, the college boy his yell and the flapper his paint.

At the football game last Friday Mrs. Mendell said: "Jay what are those boys doing with their heads together like that? Is it a football game?" Jay: "No my dear, just a bunch of Scotchmen lighting a cigarette."

We hear that Comrade Wayne Smith is trying hard to learn that game called golf. Don't give up comrade.

Did you ever try to start a car without a battery in it? Can't be done. Ask Leo Marlaire.

The only difference between a rat and a grave is in the length and depth. Don't get in a rut.

Something should be done about the weekly parties being given by some members' wives. It is rumored that four husbands almost wong a few nights ago on account of them. How about it Jackie?

Things that never happen: Bill Matland and Ching Worth playing in pinocle and Malt smoking one of Worth's cigars.

Thanks to Jay Mendell for the fancy ash trays. A product of his own handiwork.

Eagle street against the world! A great joke. Never overbid your hand Dusenbury. (Editor's note: If the other half of the Eagle Street combination had been opposite, things would have been different. Certain handicaps cannot be overcome.

Sure going to have heaps of "jelly" at DeMack's house this winter. Long came Joe back from Michigan with ten bushels of grapes.

An investigation of the box containing the names of paid up members, from which the attendance prize is drawn each meeting night, is in order. Will someone kindly make such a motion? Jackie is the sole custodian of the said box and at last Tuesday's meeting whose name should be called as the winner but Jackie's. Your committee is of the opinion that a proper investigation made by an unprejudiced committee would disclose that every third card in the box bears the name of J. W. Cline.

We had some mighty good reports from the delegates to the convention at the last meeting. There were some important things brought up this year, especially in the line of rehabilitation and veteran relief.

Dutch Volkman had better be thankful that the sergeant at arms did not see him as he tried to muss up the floor Tuesday night. Better be careful Dutch, Charlie is a bad boy.

Aside from the rescue of General Pershing by Geo. Dandurand which was described in a former Voice, we find that we have another hero in our ranks. Tommy Stock rescued a dane and badge for one of the comrades out of the Fox river at Aurora.

Every Legionnaire must appoint himself a committee of one to sell the Legion to some non-member during the coming year. He must first pay his own dues and then interest a veteran into the worthwhile ideas and objects of our organization. In order to become a successful salesman you must be a member of our post. We have some members who are not "sold" on the Legion themselves, simply pay their dues when called upon and that is the last heard from them till next year. Get in the saddle members and take hold with your heels.

An attempt to rob the George Haas service station Monday evening was unsuccessful when Mr. Haas drove the marauders away at the point of a gun.

It was about 10 o'clock in the evening, just before closing time, when a Nash 4-door sedan pulled up on the drive and a young man and young woman got out.

Mr. Haas looked the pair over and recalled to mind a warning which had been sent out by sheriff's officers in nearby counties which described a man and woman as a pair of holdups who preyed on filling stations along the principal highways of Illinois and Indiana.

The two fitted in with the description he had received and their actions caused him to believe they were bandits. They called for two bottles of soda. Mr. Haas went to the basement where the soft drinks are kept and got out two bottles. He walked up the stairway with his head turned to prevent any surprise attack. The man paid for the soda and then asked for some nickels in change. He pulled out a handful of nickels and asked for a quarter out of the nickels and handed it to Mr. Haas.

As the latter stepped to the cash register drawer, the woman followed him and looked in the register drawer. Haas then picked up a gun which he keeps handy and ordered them both out. The pair exchanged glances and walked out without a word. They drove away at a high rate of speed. As they left another car started its motor and pulled away from a secluded parking space on Route 49 about a hundred feet from the service station.

The incident leads Mr. Haas to believe that the two cars were working together.

On the following morning word was received from Peotone that a man and woman driving a Nash sedan robbed a filling station there and escaped with about \$60 in cash. The description tallied exactly with Mr. Haas' description of his visitors.

A series of soil testing and mapping meetings being held by the Farm Bureau in the various Farm Bureau units are thoroughly appreciated by the membership. A good many are turning out with complete samples of soil to be tested, appreciating that while they may not be able to buy a large amount of lime stone this year that by testing they will know whether or not they should waste clover seed on the soil that they are going to sow realizing that it is useless to sow clover on acid soil. By testing they will soon have a complete map of their entire farm as far as limestone and phosphate recommendations are concerned.

Many members are saving substantial amounts of limestone which might be purchased had they not tested, in that they have found a good share of their land did not need limestone.

You don't throw all the ingredients in the bowl at once. You combine them a little at a time and make a perfect, spongy dough. Hills Bros. roast their coffee by a continuous process—a few pounds at a time—never in bulk, and develop a flavor such as no other coffee has.
